RISE | STYLE GUIDE

v4.2019.03

RISE means great internet

RISE gives businesses fast and reliable internet connectivity while providing an engaged and effective customer experience. With offices in Cebu and Makati, RISE operates an independent IP network designed and built for speed and reliability according to international industry best practice.

Mission

The RISE mission is to accelerate internet in the Philippines—

we do this by focusing on the overall customer experience as well as the actual internet service we provide to business clients. Transparency and openness are guiding principles of our customer experience.

RISE Logo Development

The little bird that flew

The RISE mission of accelerating internet in the Philippines has always been driven by the immense opportunity pervasive internet access can bring.

The internet is many things— considered as infrastructure, it supports the exchange of ideas, establishes personal connections, supports a digital economy and provides critical and timely information in the world around us. With the potential to support other industries that increase the standard of living and quality of life such as healthcare, education and finance, we knew that RISE would be the right name. Everything can rise and fly high with the right building blocks in place.

We wanted a logo that signified that we were building things together in our part of the world, that what we were creating would help others fly and that we were doing so in a unique and special way. Since we were starting in Cebu in the Visayas region before expanding to the rest of the Philippines, we chose a beautiful and rare colourful bird, the Visayan Flowerpecker as our inspiration.

RISE

RISE Logo

We use the RISE Logo to identify our company to the world, and as such they are protected by law. Consistent application of the this logo reinforces brand recognition and trust.

Unless you have a separate written agreement, use of the RISE Logo by any entity outside of RISE must be requested through our Marketing Communications department, and also requires prior written approval from the RISE Legal Department. Usage violations should be reported to our marketing team at branding@rise.com.ph

Icon

The stand alone icon also serves as a RISE brand signature.

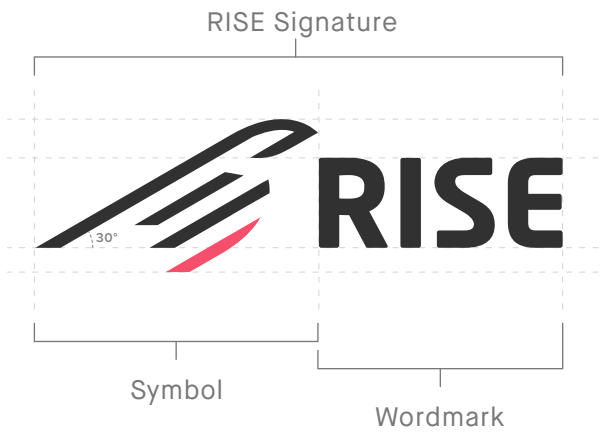
This icon is used in context with the RISE brand or in applications that already make mention of the brand. This can also be used as a brand stamp.

Logo Elements

Our logo is made up of two elements: the RISE bird Symbol and our "RISE" wordmark set in NeoTech Bold. You may not alter or modify it in any way other than re-sizing proportionately. It is important to always display this Signature, as shown in this guide, as is. The RISE Signature should never be altered, tilted, distorted, or manipulated on any application.

The RISE Signature should be represented no less than 18 pixels or 0.25 inches high.

LOGO ELEMENTS



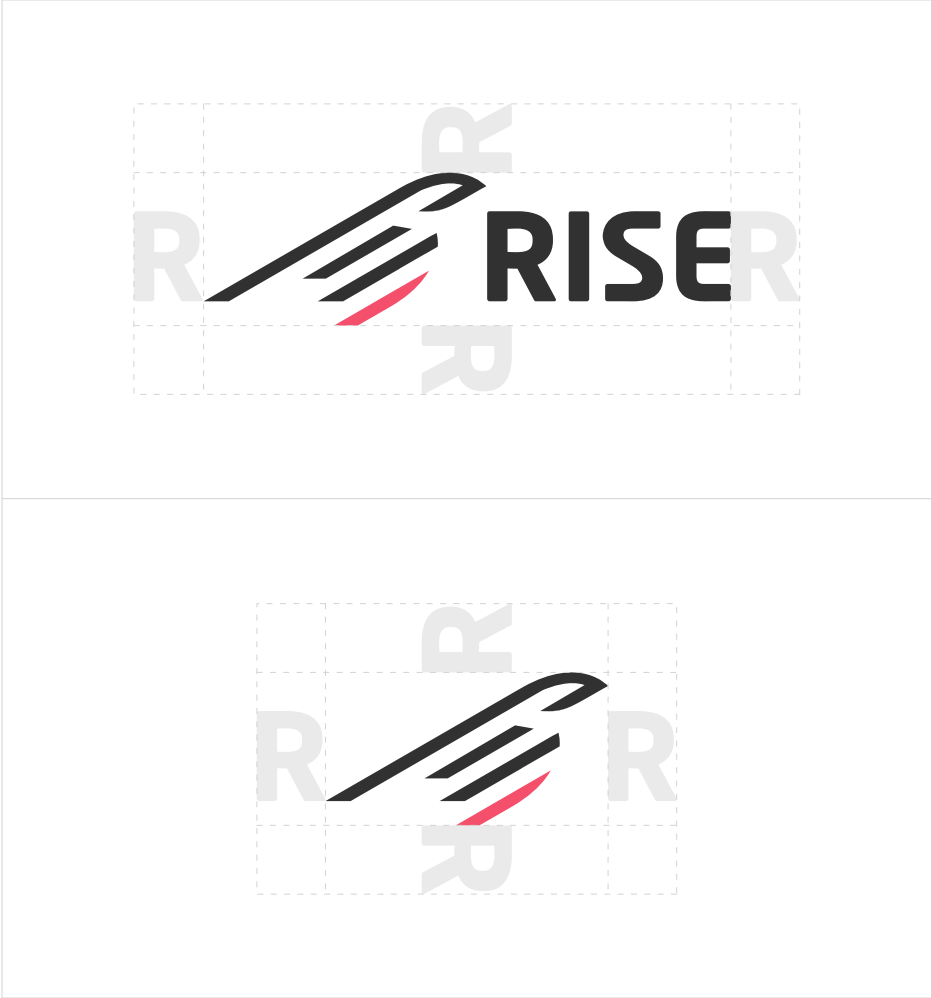
MINIMUM SIZE

Clearspace

Please observe clearspace around the RISE Logos to optimize their visual impact and to reinforce protection of our trademark under the law. No other elements can be present in the clear space as specified in these guidelines.

The preferred minimum clearspace around the logo and icon is the width of R displayed in the RISE wordmark.

Clearspace requirements apply to text, graphics, photos or any other media with the exception of those generated by the RISE Marketing Team.



Usage & Application

FULL-COLOR RISE SIGNATURE

This is the preferred version, to be used on white or light coloured backgrounds ONLY.

COLOR REVERSE SIGNATURE

This signature should ONLY be used on black or dark coloured backgrounds.

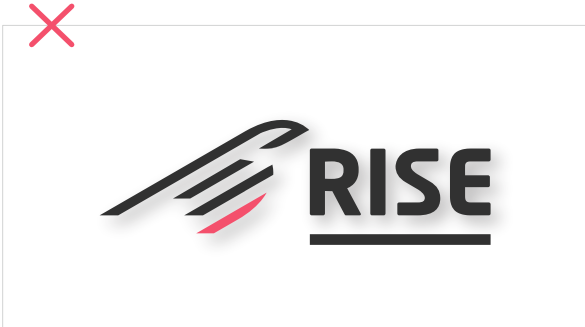
SOLID WHITE REVERSE SIGNATURE

Use infrequently, when reproduction limitations force its use. Print on medium to dark coloured backgrounds. Gray is not to be used for

Improper Usage

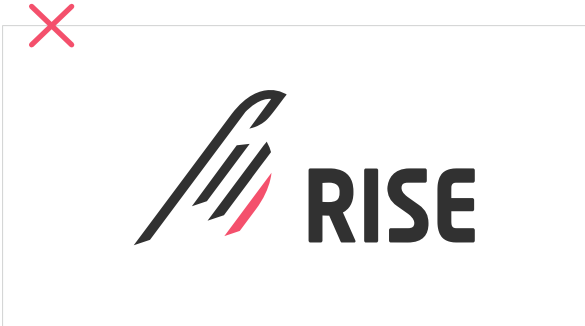
1. Do not delete any portion of it.

2. Do not use non-approved or altered colours.



3. Do not add special effects or other elements.

4. Do not use non-approved typefaces.



5. Do not distort or move the position of the word RISE. Do not reposition the artwork or rotate it.

6. Do not use the black signature on dark backgrounds with insufficient contrast.

Colours

Our corporate colours help convey our brand personality. Consistent use of these colours is vital to our corporate identity. Please use only the color palette and the color formulas and percentages as specified in this document when displaying the RISE Logos and designing other visual elements for communications materials, whether in print or electronic media.
